Founded 1924

OFFICERS FOR 1931

President, Professor Edgar Howard Sturtevant, Yale University.

Vice-President, Professor H. H. Bender, Princeton University.

Secretary and Treasurer, Professor Roland G. Kent, University of Pennsylvania.

Executive Committee, the preceding, and

Professor C. D. Buck, University of Chicago.

Professor Franklin Edgerton, Yale University.

Professor James E. Shaw, University of Toronto.

Committee on Publications:

Chairman and Editor: Professor George Melville Bolling, Ohio State University.

To serve through 1931: Professor Edward Sapir, University of Chicago.

To serve through 1932: Professor Samuel Moore, University of Michigan.

To serve through 1933: Professor Hans Kurath, Ohio State University.

The Linguistic Society of America was founded in December, 1924, for the advancement of the scientific study of language. The Society plans to promote this aim by bringing students of language together in its meetings, and by publishing the fruits of research. It has established a quarterly journal, a series of language monographs, and a series of language dissertations; the last two will appear at irregular intervals, according to the material offered to the Committee on Publications and the funds available for the purpose. Members will receive all in return for the annual dues of Five Dollars.

Membership in the Society is not restricted to professed scholars in linguistics. All persons, whether men or women, who are in sympathy with the objects of the Society, are invited to give it their assistance in furthering its work. Application for membership should be made to the Secretary, Professor Roland G. Kent, University of Pennsylvania, Philadelphia, Pa.

It is to be noted by users of this *Index*

(1) that the items in I have received serial numbers, by which reference is made to them as a whole in III. A, when the entire article is in point;

(2) that the topics in III and the words in IV are a selection merely, including only those of most importance;

(3) that in some instances the articles deal with the language as a whole, and the separate words are therefore not listed in III; but the article as a whole may be located under the name of the language in III. A.

CONTENTS

		PAGE
I.	Index of Authors	296
II. A	Index of Technical Articles	305
II. B.a	Index of Authors of Books Reviewed	308
II. B.b	Index of Titles of Books Reviewed	313
III. A	Index of Technical Subjects	318
III. B	Index of Non-Technical Subjects	335
IV.	Index of Words	340

It is to be noted by users of this *Index*

(1) that the items in I have received serial numbers, by which reference is made to them as a whole in III. A, when the entire article is in point;

(2) that the topics in III and the words in IV are a selection merely, including only those of most importance;

(3) that in some instances the articles deal with the language as a whole, and the separate words are therefore not listed in IV; but the article as a whole may be located under the name of the language in III. A;

(4) that, for the sake of uniformity, orthography differs in a few instances from that found in LANGUAGE.

INDEX TO LANGUAGE XI–XV (1935–1939)

PREPARED BY GEORGE S. LANE
UNIVERSITY OF NORTH CAROLINA

CONTENTS

		PAGE
I.	Index of Authors	4
II. A	Index of Technical Articles	14
II. B.a	Index of Authors of Books Reviewed	19
II. B.b	Index of Titles of Books Reviewed	24
III. A	Index of Technical Subjects	30
III. B	Index of Non-Technical Subjects	37
IV.	Index of Words	41

To the users of this INDEX:

(1) The items in I have received serial numbers by which reference is made in III.A when the entire article is in point.

(2) The topics in III.A and B and the words in IV are a selection of those that are discussed in the particular instance; mere mention in an article or review does not warrant inclusion in the INDEX.

(3) In some instances an article deals with a language as a whole, or with certain phenomena of a language, and words are cited as examples only. In such cases the words are not included in IV; but the language or the particular phenomena discussed may be located in III.A.

(4) Orthography is in general standardized where possible, and the alphabetical orders are the established ones; e.g., Avestan and Old Persian according to Bartholomae, Hittite according to Sturtevant's Glossary, but Tocharian in the European, not the Sanskrit order.

(5) The Index of Non-Technical Subjects (III.B) is substantially shortened by the fact that only the Proceedings at Philadelphia, December 28 and 29, 1934, were printed in LANGUAGE. The Proceedings from 1935 on appear in separate Bulletins, and are therefore not included in this INDEX.

I.	Index of Authors	4
II. A	Index of Technical Articles	13
II. B.a	Index of Authors of Books Reviewed	17
II. B.b	Index of Titles of Books Reviewed	22
III. A	Index of Technical Subjects	27
III. B	Index of Non-Technical Subjects	37
IV.	Index of Words	38

To users of this Index:

(1) The items in I have received serial numbers by which reference is made in III. A when the entire article is in point.

(2) The topics in III. A and B and the words in IV are a selection of those discussed; mere mention in an article or review does not warrant inclusion in the Index.

(3) In some instances an article deals with a language as a whole, or with certain phenomena of a language, and words are cited as examples only. In such cases the words are not included in IV; but the language or the phenomenon discussed will be found in III. A.

(4) Orthography is standardized where possible, and the alphabetical orders are the established ones; e.g. Old Persian according to Bartholomae, Hittite according to Sturtevant's Glossary, etc.

(5) The Index does not cover material published in any of the Supplements to Language.

A. Index of Authors 4

B. Index of Articles 14

C. Index of Authors Reviewed 17

D. Index of Books Reviewed 22

E. Index of Languages 28

F. Index of Persons Mentioned in the Notes 44

G. Index of Organizations Mentioned in the Notes 46

This Index covers only the journal LANGUAGE. Supplements to the journal (Language Monographs and Language Dissertations) and Special Publications of the Linguistic Society are not indexed here.

Reference to volume, pages, and year are given in Section A (Index of Authors). Each item in this section is provided with a boldface number, to which references are made in Sections B, C, D, and E.

In alphabetizing titles of articles and books reviewed, a definite or indefinite article at the beginning of the title is disregarded.

Section E (Index of Languages) lists not only separate languages but also dialects and language families. A number means that the language, dialect, or family is mentioned at least once in the article or review referred to.

Sections F and G list persons and organizations mentioned in the Notes to LANGUAGE. Each item is followed by a reference to volume, page, and year.

E. LANGUAGES

This section lists not only separate languages but also dialects and language families. A number after an entry means that the language, dialect, or family is mentioned at least once in the article or review referred to. (References are to the entries of Index A, Authors.) Hyphenated names are alphabetized according to the status of the terms flanking the hyphen: thus, Indo-European and Italo-Celtic (NOT European, Indo-; Celtic, Italo-), but Romance, Gallo-, and Slavic, Proto- (NOT Gallo-Romance and Proto-Slavic). No attempt has been made to regularize the spellings of language names used by different authors, or to refer from one spelling to another with the same value.
